Leading branded products in Modern Measuring Technology

IQ **Industrial Quality** –
The profi-products have been
developed for continous
professional use.

PT **Professional Technology** –
Extensive product assortment
for demanding end-users and
building professionals.

The modern measuring tools marketed under the Laserliner brand name stand out because of their numerous technical innovations and high quality: rotary lasers with single-slope or anti-shake functions for professional use, line lasers with PowerBright technology to improve visibility and range. All lasers are optic-electronically calibrated and inspected to be within tolerances. Furthermore, a quality certificate comes with every industrial quality product.
